Latin American representative to provide comprehensive cooling product line, contract manufacturing services...

ORION FANS ADDS ANXO COMPONENTS TO REPRESENTATIVE PORTFOLIO TO BETTER SERVE AND EXPAND CUSTOMER BASE IN MEXICO

DALLAS, TX (July 15, 2009) – Knight Electronics’ Orion Fans, a leading manufacturer of standard and custom AC and DC fans, has recently added Anxo Components to its representative portfolio to provide better service and support to its customers in Mexico. Known for maintaining the largest available inventory of AC and DC fans and fan trays in the world, as well as for its experience in global logistics, Orion Fans provides high quality cooling solutions more seamlessly and with shorter lead times than other manufacturers throughout the region and worldwide.

“We are looking forward to offering an expanded range of products, services, and support to our valued customers in Mexico with the assistance of our newest representative partner,” said Tom Wheeler, national sales manager for Orion Fans. “By leveraging Anxo’s years of experience and intimate knowledge of the Latin American market and culture, we also hope to expand our current customer base by extending our fan products as well as contract manufacturing services throughout the region.”

ORION FANS ADDS ANXO COMPONENTS TO REPRESENTATIVE PORTFOLIO, PG. 2

Anxo Components will represent Orion Fans' complete product line, including standard and custom AC and DC fans, fan trays, blowers, and accessories. The expansive product line provides a wide range of cooling solutions for a variety of standard and specialty applications such as telecommunications, networking and computer equipment; cabinets, panels, electronics enclosures, industrial controls, servers and motor drives; as well as harsh environment applications and those specified for energy-efficiency.

As a proven supply source for quality engineered and competitively priced products, Anxo Components will also extend Knight Electronics' contract manufacturing services throughout the region. Through Anxo Components, Knight Electronics, an expert in solving issues of quality, availability, performance, and cost competitiveness, will provide regional OEMs with trusted turnkey products, programs, and value-added services, including just-in-time delivery on scheduled orders and assuming currency risks.

"Orion Fans and Knight Electronics provide a comprehensive line of quality engineered and competitively priced cooling products and assemblies for a variety of applications, as well as offer a full range of value-added contract manufacturing services; both of which will fulfill the needs of our customers, as well as help us to expand our customer base," said Anxo Components director, Alejandro Bravo Bitar.

Headquartered in Guadalajara, Mexico, Anxo Components provides integrated solutions to meet even the most demanding client specifications. Highly principled and known for the excellence of the products and services it provides to OEMs, as well as its commitment to building strong customer relationships, Anxo Components serves local and international electronics manufacturers conducting business in Latin America.
